<http://cwpt.wordpress.ptfs-europe.co.uk/> *E-Books require an OpenAthens account.
Contact your local library for more information or to request an Athens Account.

Out of the madhouse: a self-help guide for managing depression, anxiety and related issues

Maitland, Michael

Told with humour and frankness through Michael's diary entries and Iain's own reflections, *Out of the Madhouse* charts Michael's journey to recovery from entering the Priory and returning home, to becoming a mental health ambassador for young people.

Depression and Heart Disease

Glassman, Alexander

Recently, there has been a growing awareness of the multiple interrelationships between depression and various physical diseases. Patients with psychiatric problems, particularly depression, may be more susceptible to cardiovascular disorders.

Metacognitive Therapy for Anxiety and Depression

Wells, Adrian

This book explains the "whats" and "how-tos" of Metacognitive Therapy (MCT), an innovative form of Cognitive-Behavioral Therapy with a growing empirical evidence base.

Depression in later life

Baldwin, Robert

Highlights areas of depression which are of special relevance to later life, how to diagnose depression in an older person, the overlap with dementia and various other physical illnesses, and important pharmacological and psychological considerations.

Depression and Type 2 Diabetes

Ismail K, Barthel A

Written and edited by international experts in diabetes and depression, *Depression and Type 2 Diabetes* reviews, critiques, and advances the latest research on the prevalent and complex relationship between depression and type 2 diabetes,

Practical Management of Bipolar Disorder

Young Allan

This practical guide provides an overview of the disorder and guidelines for treating the illness, from authors internationally renowned for their work in bipolar disorder.

Learning ACT: an acceptance and commitment therapy skills training manual for therapists

Luoma, Jason et al

This second edition of the pioneering ACT skills-training manual for clinicians provides a comprehensive update-essential for both experienced practitioners and those new to using ACT and its applications.

Overcoming Depression: Therapist Guide

Gilson, Mark

This therapist guide is designed to give mental health professionals the necessary tools to assess and treat a broad range of mood disorders, particularly depression.

An introduction to coping with depression

Brosan, Lee

Acceptance and commitment therapy (ACT) is among the most remarkable developments in contemporary psychotherapy. This second edition of the pioneering ACT skills-training manual for clinicians provides a comprehensive update-essential for both experienced practitioners and those new to using ACT and its applications.

The recovery letters : addressed to people experiencing depression

Withey, James

In 2012, The Recovery Letters was launched to host a series of letters online written by people recovering from depression, addressed to those currently affected by a mental health condition. This powerful collection of personal letters from people with first-hand experiences of depression will serve as a comforting resource for anyone on the journey to recovery.

Depressive disorders

American Psychiatric Association

Crafted around a specific disorder cited in DSM-5(R).

This selection provides an overview of the process of diagnosing sleep-wake disorders and is a reference guide to assist in the diagnosis of individual patients. The disorder-specific resource is an valuable addition to the DSM-5(R) collection and an important contribution to the mental health profession.

Understanding Depression: A Translational Approach

Pariante Carmine, Nesse Randolph, Nutt David,

Wolpert Lewis

This book brings together world leaders in research on depression, to discuss, for the first time in an interdisciplinary setting, both classical and innovative ideas to understand this devastating disorder.

Identifying perinatal depression and anxiety: evidence-based practice in screening, psychosocial assessment and management

Milgrom, Jeanette

Identifying Perinatal Depression and Anxiety brings together the very latest research and clinical practice on this topic from around the world in one valuable resource.

Overcoming depression and low mood: a five areas approach

Williams, Chris

Helps you understand why you sometimes feel low, anxious, angry, or guilty. It also teaches proven practical skills to help you change how you feel. By using the clearly described practical tools inside, you can make helpful changes to your life. Ultimately, the hope is that this book will help you to regain a sense of control over how you feel.

The compassionate mind approach to postnatal depression

Cree, Michelle

This self-help book based on Compassion Focused

Therapy will help women to recognise some of the symptoms and, where appropriate, to normalise them, thereby alleviating their distress. It will guide mothers-to-be and new mothers through the confusing feelings that can arise.

Psychotherapy and Counselling for Depression

Paul Gilbert

This book takes you gently through the biopsychosocial processes that underpin depression. Excellent worksheets and information sheets are provided as appendices.

Bipolar Disorder **Strakowski S M**

This book was written specifically with new psychiatrists and mental health practitioners in mind to facilitate their ability to care for this condition. Chapters review clinical presentation and epidemiology, etiology and neurobiology, and treatment of bipolar disorder.

Thoughts & Feelings: **taking control of your** **moods & life** **McKay Matthew**

This fully revised and updated fifth edition of Thoughts and Feelings outlines twenty evidence-based techniques you can mix and match to create your own personal treatment plan for overcoming a range of mental health concerns—including worry, panic attacks, depression, low self-esteem, anger, and emotional and behavioral challenges of any kind

Live More Think Less **Callesen Pia**

The first practical book on metacognitive therapy - a groundbreaking new treatment for depression - *Live More Think Less* presents guidance, case studies and exercises and tips from the therapy room.

CBT for Depression: an **integrated approach**

Barton Stephen

This book introduces an approach to CBT for depression that integrates cognitive-behavioural models, evidence and therapies. Rooted in evidence-based practice and practically focused, it draws on components of first, second and third-wave CBT to help readers tailor therapy to the needs of individual clients
