

Library and Knowledge Services

KnowledgeShare Current Awareness

What is it? KnowledgeShare is our targeted current awareness service. Whenever we find high impact documents in your area, we'll let you know. This would consist of summarised evidence; you will not be inundated with primary research articles.

Why use it? We give you the latest high-level evidence in your field.

How does it work? Your KnowledgeShare profile is created to be as broad or as specific as you need. E.G., you could receive everything published on Autism or limit to receive items related to treatment only.

An NHS OpenAthens account will help you to make the most of this service, enabling direct access to full text documents where appropriate. You can register at: <https://openathens.nice.org.uk>

Name		Title	
Job Title		Department	
Work Address			
Email		Telephone	

Condition/Risk Factors (e.g. Autism, Bipolar disorder, Diabetes)		Professional Interests (e.g. patient safety, service design)
