How to Install the LibKey Nomad Browser Extension

LibKey Nomad is already installed on <u>all</u> Trust computers, so skip to step 4 of this guide to permanently 'pin' the Nomad icon to your menu bar.

Follow the full guide to install LibKey Nomad on <u>non-Trust</u> devices.

LibKey Nomad is a browser extension available in Google Chrome, Firefox, Edge, Brave, and Vivaldi, that allows you to easily link to the full text of journal articles where available. It works even when you are using non-Library subscribed tools like Google Scholar and PubMed to search for information.

1) How do I download Libkey Nomad onto my **non-Trust** device? To install go to <u>https://thirdiron.com/downloadnomad/</u> and click on Get Libkey Nomad Now or scroll to the bottom of the page and select a browser.

- How do I download a fulltext article using LibKey Nomad?
 On finding an article you want to read (e.g. an article you have found via PubMed), look for the LibKey Nomad 'flame' icon in the bottom left-hand corner of your screen and click on it to access the full text. If full text is not available, the icon will appear with access options (e.g. Article request form).
